

# Aperture & Shutter Speed Work Sheet

Take all photos at school, fill out the work sheet and follow instructions. Make sure all images are sized to 4 x 6 at 300 DPI. For all images use manual focus. Once completed, show me your eight images in the order that they appear on the following completed sheets.

## Aperture Priority Mode

Instructions	File Name	Shutter Speed	Aperture	ISO	Mark					
					Task Completed	3	2	1	0	Total
Take a picture of 2 objects with the foreground object in focus, and an out of focus background object.	apm1_yourname				Task Completed	3	2	1	0	Total
					Creativity Sharpness Composition	2	1	0		
					File Name File Size Resolution		1	0	/6	
Take a picture of 2 objects with the foreground object blurred and the background object in focus.	apm2_yourname				Task Completed	3	2	1	0	Total
					Creativity Sharpness Composition	2	1	0		
					File Name File Size Resolution		1	0	/6	
Take a picture of 3 objects with the foreground object out of focus, the background object out of focus, but the middle object in focus.	apm3_yourname				Task Completed	3	2	1	0	Total
					Creativity Sharpness Composition	2	1	0		
					File Name File Size Resolution		1	0	/6	
Take a picture of 2 objects that are at different distances, both in focus.	apm4_yourname				Task Completed	3	2	1	0	Total
					Creativity Sharpness Composition	2	1	0		
					File Name File Size Resolution		1	0	/6	

Total: /24

## Shutter Speed Priority Mode

Instructions	File Name	Shutter Speed	Aperture	ISO	Mark					
					Task Completed	3	2	1	0	Total
Take a picture of an object in motion to show movement.	sspm1_yourname				Task Completed	3	2	1	0	Total
					Creativity Sharpness Composition	2	1	0		
					File Name File Size Resolution		1	0	/6	
Take a picture of a moving object to capture the object in motion so it looks like the object is frozen with no blur.	sspm2_yourname				Task Completed	3	2	1	0	Total
					Creativity Sharpness Composition	2	1	0		
					File Name File Size Resolution		1	0	/6	
Take a picture of an object that is in fast motion (like a car) but pan while you take the shot so the object appears sharp but the background is blurred.	sspm3_yourname				Task Completed	3	2	1	0	Total
					Creativity Sharpness Composition	2	1	0		
					File Name File Size Resolution		1	0	/6	
Take an artistic picture of an object using a shutter speed longer than 1 second.	sspm4_yourname				Task Completed	3	2	1	0	Total
					Creativity Sharpness Composition	2	1	0		
					File Name File Size Resolution		1	0	/6
