

Tilt-Shift Photography Assignment

1. You will find 3 images online, ideally aerial view photos.

- Google image search: Aerial Photography
- Ensure that images are large (search for images greater than 8 megapixels)
- Final photos are in **CMYK** to be cropped to **4" x 6"** and set at **300 dpi**.

2. Manufacture **Tilt-Shift Photography** effects on each photo using the following tutorial:

<http://www.photoshopessentials.com/photo-effects/miniature-tilt-shift-cs6/>

3. You will receive a mark for submitting all 3 finished photos, however only your best will be given the final mark.

- You will indicate which image you consider your best to be given the final mark.
