

The Synopsis

The purpose of a synopsis is to help the producers of the video understand what will happen in the video. It has a beginning, a middle and it gives away the ending. Type in complete sentences, detail everything that will happen in sequence. All text is to be single spaced, but double space the text between paragraphs. The synopsis is detailed, but not to the extent that all the dialogue is included. The dialogue will be completed in the script.

Include the target audience for your piece. When you create a video it should have a purpose or a message and be directed to a specific group of people. Explain who they are and how the video will appeal to them.

Explain who the talent will be for your video and what characters they will play. For each character include a brief write-up about them. Include details such as the characters name — played by whom, age of the character and the character's role in the production.

Your synopsis should be at least one full page typed.
