

# nin radio remix

Your task is to make a 3 minute (Give or take 5 seconds) radio remix of “Only” OR “The Hand That Feeds” by the band Nine Inch Nails. Please wear headphones for everyone’s sake. The files are on the network hard drive. Access the hard drive from your computer and copy one of the files to your computer. DO NOT OPEN THE FILE FROM THE HARD DRIVE!!

## Requirements:

The song, once edit, must:

- Be 3 minutes (Give or take 5 seconds)
- Be edited to eliminate any swear words
- Contain less than 10 tracks
- Have a maximum of 2 vocal tracks
- Contain at least one Midi (Software) channel

Be creative. Change the genre. You do not have to use all lyrics. You may add, repeat or eliminate anything except the fact that there has to be at least one chorus and one verse

## Things to note:

Since this is a huge GB file and it will clog up your computer. Do the following:

- 1) Quit other open applications.
- 2) Choose GarageBand > Preferences, click Audio/MIDI, then click the "Maximum number of simultaneous tracks" button in the "Optimize for" section.
- 3) **Lock any tracks you’re not working on**  
Locking a track protects the track (including the regions in the track and any track effects settings) from unintended changes, and renders the track to your computer’s hard disk. Locking tracks can reduce the processing power required to play the track, particularly for Software Instrument tracks and for Real Instrument tracks that use complex effects. If you want to make changes later, you can unlock the track, make the changes, then lock the track again.
